VISION

Your wardrobe should be a true representation of yourself. You should feel comfortable and confident while on stage. This guideline is intended to help you determine what suits your personal style while highlighting your best features. It's important to find silhouettes that are best suited for your body type and colors that best complement your skin tone. It's important to show the judges who you are while on stage, not who you think they want to win. This guideline will also give examples for styling tips when it comes to accessories, hair, and makeup. Number one thing is to stay YOU in your wardrobe choices, because if you don't feel comfortable in it, it will show in your energy levels. Be bold, be stylish and be yourself.

HAIR & MAKE UP

- Any hairstyle that makes you feel like yourself is the way to go!

- Having shine and sheen to your hair is best, it makes your hair look healthy under the stage lights.

- This competition has modernized and the styling should reflect that.
- Your makeup should be a natural extension of your beauty. Avoid dark lip colors if you have fair skin. Neutral colors only on your eyes.

- You want to look as natural as possible. A pinky/nude lip with a gloss is always timeless and a neutral smokey eye.
- The stage lights will wash out your complexion, so it's important to have bronzer and blush to sculpt your face.
- False eyelashes/extensions are recommended.
- A spray tan for fair skin is recommended. The stage lights can be very harsh.
